KEY FEATURES

- * Customize your cooking**
Create meals that reflect your personal style with a single oven that can be used in five different ways. The advanced cooking technologies include a Convection Oven, Microwave, Toaster Oven, Warming/Proofing Oven, and Precision Cook Oven with Advantium Technology
- * Speed cooking with oven quality results**
Achieve delicious oven-quality results two to four times faster than a conventional oven with a blend true European convection heat, microwave and the energy from light that balances the heat type and source to give amazing results in a fraction of the time.
- * An LCD display with a touch of style**
Easily navigate wall oven settings with the beautiful full color display that adds a unique element of style to your kitchen
- * Perfectly reheated food**
You get crispy results at microwave speed with 20+ reheat programs for leftovers that taste like first time to table
- * No pre-heat required**
Your dishes begin to cook immediately because the Five in One Oven with 120V Advantium(R) Technology needs no pre-heat time and cooks two to four times faster than a conventional oven
- * Bring the flavor with steam**
Use the steam option to cook a variety of proteins such as fish, chicken and pork, vegetables and grains such as rice, pasta and quinoa. The steam option creates a moist cooking environment, keeping foods juicy and full of flavor
- * Create a look that matches your personal style**
Select any combination of premium finishes and hardware options to create a stunning look customized to any owner's taste
- * Clean-up has never been easier**
Keep your oven looking like new at all times with steam clean
