AT A GLANCE

GE(R) appliances provide up-to-date technology and exceptional quality to simplify the way you live. With a timeless appearance, this family of appliances is ideal for your family. And, coming from one of the most trusted names in America, you know that this entire selection of appliances is as advanced as it is practical.

KEY FEATURES

- * Auto Dry**
Auto Dry monitors the internal air temperature to determine the ideal drying time, protecting your garments from overdrying.
- * Powerful Venting & Flexible Installation**
Powerful airflow offers long-lasting performance from lint build-up and offers venting solutions up to 120 feet for greater installation flexibility.
- * Large Diffuser for Even Drying**
A large internal heat diffuser allows for warm air to evenly spread throughout your clothes during the cycle, making this the ideal dryer for large loads and bulky items.
- * Extended Tumble**
Tumble clothes without heat to prevent creasing and wrinkling with a convenient extended tumble button. This cycle is ideal to help to remove even more pet hair on already-dry items, allowing debris to be caught by your dryer's lint screen.
- * Interior Light**
Convenient dryer drum lights provide better visibility to help ensure no small items or socks are left behind, making it easier to load and unload laundry.
- * Adjustable Cycle Signal**
End of Cycle signal volume is adjustable, ensuring you are alerted to promptly remove your garments before wrinkles have a chance to form.
- * Durable Aluminized Drum**
This durable, long-lasting design resists corrosion and optimizes drying performance.
- * Reversible Dryer Door**
Door can swing from either direction making it easier to access the last sock from the back of the drum.
