KEY FEATURES

- * Microban(R) Antimicrobial Technology**
Enjoy longer-lasting dishwasher protection thanks to Microban(R) Antimicrobial Technology. Built into high-usage touchpoints to help prevent bacteria growth, it keeps protected surfaces 99% cleaner than unprotected surfaces
- * Dry Boost(TM)**
Dry Boost(TM) technology outperforms standard heated-dry dishwashers by getting hard-to-dry items like plastics up to 3 times drier when compared to heated dry
- * Smart Features Powered by SmartHQ(TM)**
Built-In WiFi and the SmartHQ(TM) app make it easy to connect, control and monitor your smart dishwasher from anywhere. You can also conveniently access the latest features, including customized cycles, remote status notifications and more
- * Smart Assist**
Smart Assist makes it simple for you to unlock optimal wash and dry performance. Innovative dishwasher sensors and intelligent machine learning enhance and improve cycles over time
- * Deep Clean Silverware Jets**
A system of deep clean silverware jets blasts the silverware basket from the bottom up, removing all stuck-on foods and providing sparkling results
- * Third Rack with Removable Silverware Caddy**
The versatile third rack was redesigned to load more than just silverware with additional space for unique items
- * Active Flood Protect**
To prevent potential overflows, a sensor detects when the water is too high and pumps it out until a safe level is reached
- * 4 Bottle Wash Jets**
This dishwasher with bottle jets ensures a deep clean for tall items, narrow glasses, jars and more. In the upper rack, each of the 4 bottle wash jets directs water and detergent inside to effectively wash hard-to-reach areas
