AT A GLANCE

A spacious 7.0 cubic-foot top-loading gas dryer that uses two moisture sensors to closely monitor inside moisture and air temperatures - stopping the cycle exactly when fabrics are evenly dry to help prevent over- and under-drying. The Wrinkle Shield Option keeps clothes tumbling for up to 2.5 hours after the cycle ends to help prevent wrinkles from setting. 11 cycles, a Quick Dry option, drum interior light and an iconic Whirlpool hamper-style drop-down door.

KEY FEATURES

- * Moisture Sensing**
Two sensors closely monitor inside moisture and air temperatures and stop the cycle when fabrics are evenly dry, preventing over- and under-drying.
- * Wrinkle Shield Option**
Help keep wrinkles from setting into clean, dry fabrics - the dryer keeps clothes tumbling for up to 2.5 hours after the cycle ends or until you open the door.
- * Timed Dry**
Set the control for 15, 30, 60 or 90 minutes when a damp load needs a little extra time or you're using a drying rack.
- * Quick Dry Cycle**
Dry a small load quickly or customize settings - and choose to remember your settings for your next load.
- * Wrinkle Control Cycle**
Minimizes wrinkles by using lower temperatures during the cycle, then defaulting to the Wrinkle Shield Option for continued tumbling after.
- * Air Only Cycle**
Fluff and refresh loads or air out delicates with a no-heat tumble.
- * End-of-Cycle Signal**
Know when your cycle is finished with an audible buzzer.
- * 7.0 Cu. Ft. Capacity**
Plenty of room to easily handle large loads, including bulky towels and comforters.
- * Interior Drum Light**
See every item in the dryer with the bright interior drum light - no more forgotten socks.
- * Hamper-Style Drop-Down Door**
Iconic Whirlpool design - the door drops down and doubles as a folding surface.
- * LP Convertible**
Convert from natural gas to liquid propane with optional kit W11581316 (sold separately).
- * Built in the USA**
Made by Whirlpool, an American company in Benton Harbor, Michigan for over 100 years.
